The plan also shows various desks, chairs, and other office furniture. A dark grey semi-transparent box is overlaid on the left side of the plan, containing white text.

Established in 1957, ModernfoldStyles will usher in the next 60 years by unveiling its new 12,000 sq. ft. Showroom and Acoustic Design Lab in 2018.

The location allows architects and clients a universal space to have a firsthand look at our product applications. It will serve as an environment to both educate and inspire.

Key Features

The interactive Acoustic Design Lab provides an opportunity to discover and experience the superb sound control qualities of our acoustical partitions.

Product Showroom

The new space blurs the line between product showroom and employee workspace. Fitted with our Operable Partitions and Glass Wall Systems, the Showroom conveniently provides visitors a true spatial experience where our products can be seen, touched and experienced in a natural work environment.

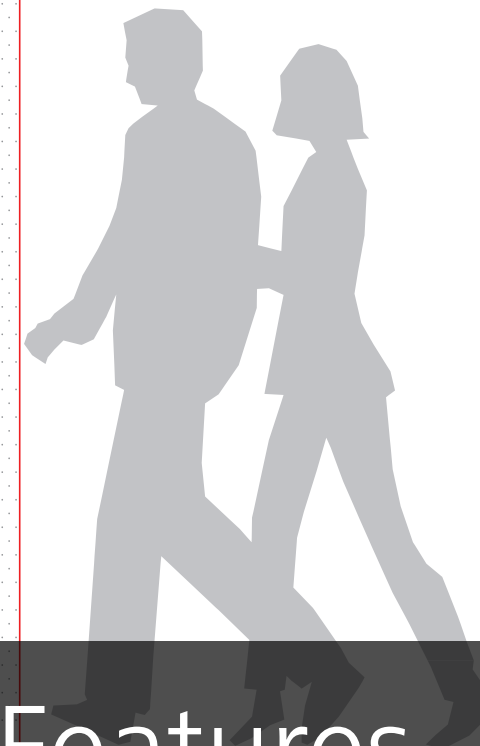

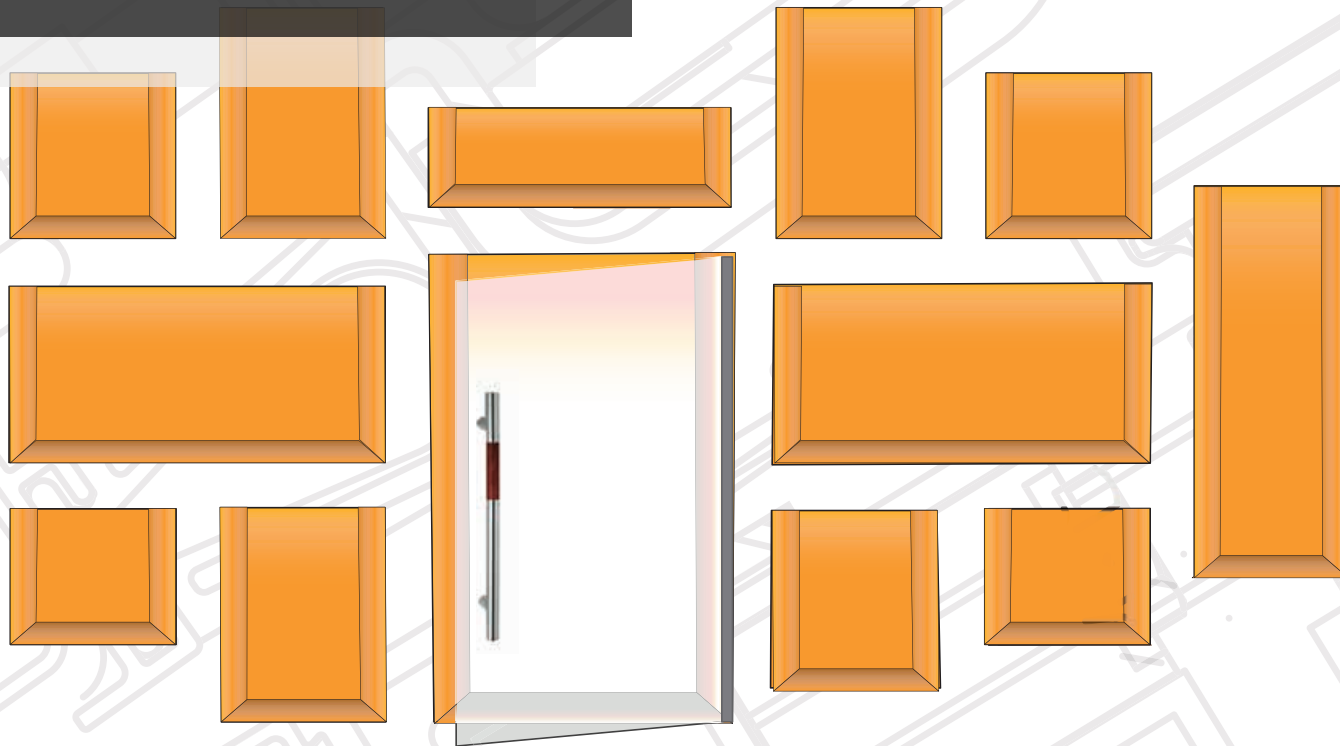

Key Features

The “touch and feel” Gallery Wall allows customers a hands-on experience to explore various product hardware and finishes.

Display Wall

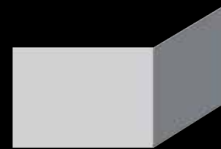

“We’ve worked hard for this. I am thankful to everyone who helped with this project. Our new Showroom design primes ModernfoldStyles as the leader in Space Management Solutions into the next century. Its completion will be a milestone event in our company’s history.”
